

Teacher Resources on the Pi

Tap **FlexiLAN Menu** and go to the **Teacher Tab**.

VIEW STUDENT SCORES

View and download scores submitted by your students

[Log in to View Results](#)

Tap to enter the
Teacher Resource zone

Enter a password to continue. In this case, the password is **the last number of each set of 4 numbers**. That is, the password (here) is 2 7 4 7 0

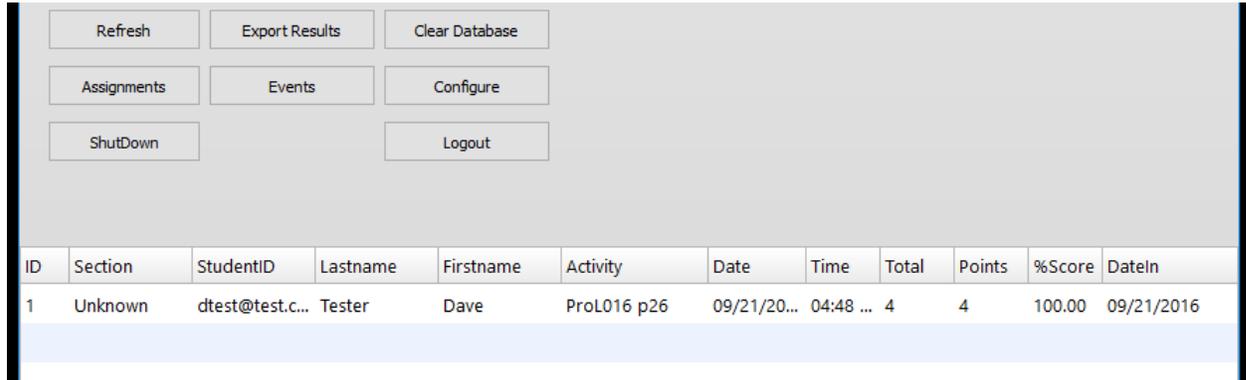

Enter password:

Status: 6002 3797 9504 4227 1990

Login

The password will change each time, allowing for the Pi to remain secure, yet also allowing you to enter, as you know the way in.

At the main window, you will find student scores, and a few buttons.

The screenshot shows a web interface with a control panel at the top and a table of student scores below. The control panel contains eight buttons: Refresh, Export Results, Clear Database, Assignments, Events, Configure, ShutDown, and Logout. The table below has 12 columns: ID, Section, StudentID, Lastname, Firstname, Activity, Date, Time, Total, Points, %Score, and DateIn. The first row of data shows a student with ID 1, Section Unknown, StudentID dtest@test.c..., Lastname Tester, Firstname Dave, Activity ProL016 p26, Date 09/21/20..., Time 04:48 ..., Total 4, Points 4, %Score 100.00, and DateIn 09/21/2016.

ID	Section	StudentID	Lastname	Firstname	Activity	Date	Time	Total	Points	%Score	DateIn
1	Unknown	dtest@test.c...	Tester	Dave	ProL016 p26	09/21/20...	04:48 ...	4	4	100.00	09/21/2016

Refresh = Refresh results (get the latest scores sent in from students)

Export Results = Scores will be saved as a CSV file (usable with any spreadsheet). The device used will dictate how this file is saved. If using a computer, it will be saved as a downloaded file (or could automatically open your spreadsheet software (Excel, or other). If using a tablet or phone, it will depend on how the device is set up to receive such files.

Clear Database = Clear all results (particularly useful at the end of term)

ShutDown = Shut down the Pi. As the Pi does not have an on/off switch, it is important to “gently” shut down the Pi when you are finished. This resembles how you would shut down a computer.

Logout = Click logout, or close this tab, to finish with the Teacher Resource page.

The other buttons will be explored in detail on the following pages.

Assignments

The screenshot shows a web interface for creating assignments. At the top, there are three buttons: "Save Draft", "Save and Activate", and "Return". To the right, there are three tabs: "Editing Tips", "Link to Library", and "Upload Files". The main area is divided into two sections. The top section, titled "Current Assignments as text with Markdown/HTML:", contains a large empty text box. Below this box is a link "View Your Page" and a message: "Save and Activate first. You may need to refresh browser to view updates!". To the right of this message is a "Refresh" button. The bottom section, titled "Assignments Previewed as HTML:", contains a smaller empty box. On the right side of the interface is a sidebar with the following content:

- Using Assignments**
 1. Save Draft: Saves current assignments, without activating for students.
 2. Save and Activate: Save current assignments and activates for students.
- Basic Editing**
 1. Type text, deleting and copying/pasting (Ctrl+C, Ctrl+V) as usual.
 2. Press Enter to force new HTML line.
 3. You can use Markdown commands for basic formatting.
 4. You can also use most HTML syntax for additional features.
- Basic Markdown Syntax**
- Font**
 - `**word**` = bold
 - `*word*` = italic
 - `~~word~~` = strikethrough
- Headings**
 - `#heading` = heading1
 - `##heading` = heading2
 - (Use `###` through `#####` for heading levels 3-6.)
- Lists**

On this page, teachers can add notes, annotations, links to books (within the Pi library, or to the wider internet, if a connection is available), and links to files uploaded to the Pi by the teacher.

In the box above, type a message. You can add formatting (see the notes to the right), or keep it simple. It is up to you. Click on **View Your Page** to get an idea what it will look like.

To have these notes take effect, click on **Save and Activate**. When you go to the Student Page and refresh, you will see these notes (they will be above the library of books).

Links to Library. To add direct links to the books from this tab, right click on the books you will see at the bottom of that tab, and Copy Link Location. Use that to create a link.

Upload Files. You can upload a variety of files. Check out that tab to learn more.

Return sends you back to the Teacher Resource page.

Events

Return

Event Title: Chapter 2 Year: 2016 Month: 10 Day: 12 Time: Description: Complete the chapter Event URL:

Clear Event Fields Update Event Add Event

Activate Entire Event List Delete Selected Event

Year: 2016 Month: 9 Remove Events/Calendar Delete All Events

Event	Year	Month	Day	Time	Description	URL
Chapter 1	2016	09	15		Complete the chapter	
Chapter 2	2016	10	12		Complete the chapter	

This is an events/calendar function. Saved events will also show on the Student page, above the library of books. Buttons and processes are fairly self-evident.

Activate Entire Event List = Will show all events, as a list (on Student page).

Activate Month Calendar = Will show a 1-month calendar (graphically).

Return sends you back to the Teacher Resource page.

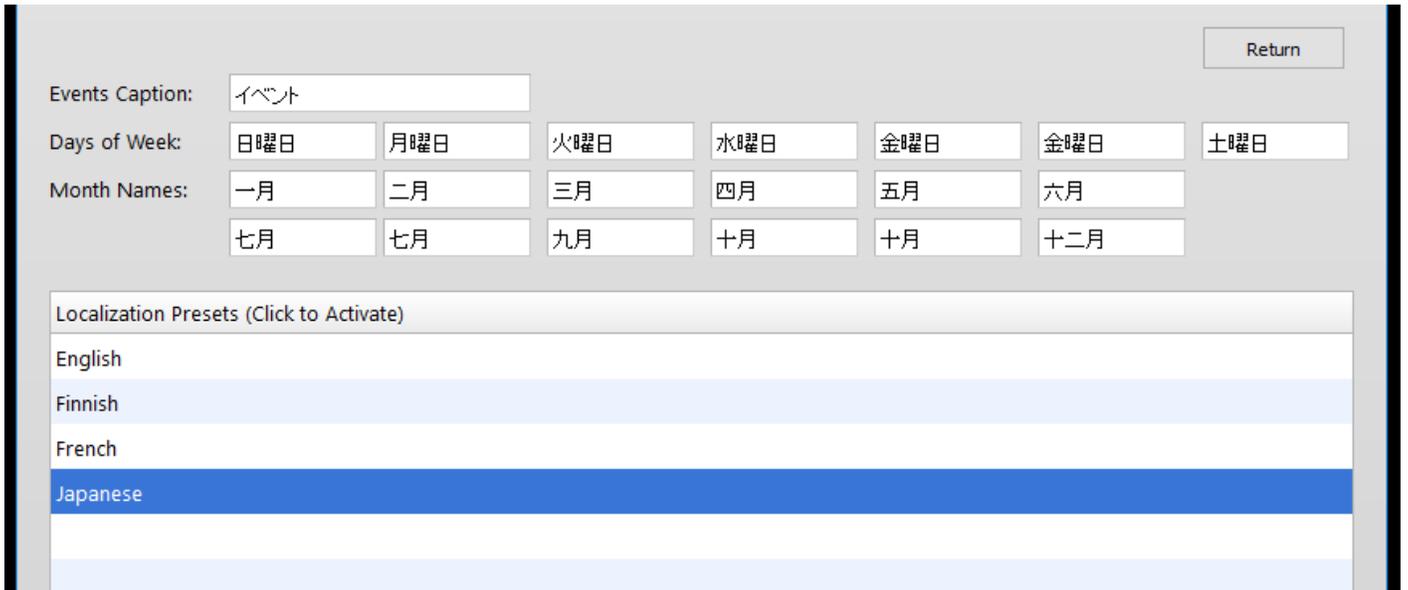

九月, 2016

日曜日	月曜日	火曜日	水曜日	金曜日	金曜日	土曜日
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15 Chapter 1	16	17
18	19	20	21	22	23	24

Calendar on the Student page. On the next page, you will see that the language has been localized to Japan.

In the **Events** box above, any language can be used when inputting text.

Configure

Return

Localization Presets (Click to Activate)

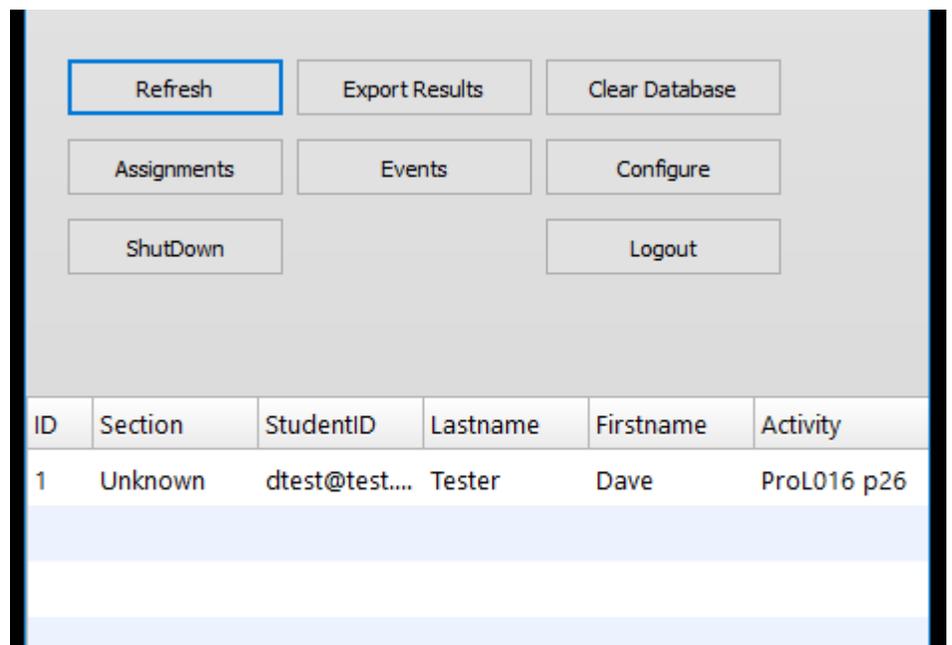

- English
- Finnish
- French
- Japanese

Choose one of the pre-set languages, or add your own.

Return sends you back to the Teacher Resource page.

NOTE:

It is important to properly **ShutDown** the Pi when you are finished using it. From the Teacher Resource page, click on **ShutDown**, then give it some time (often 10-20 secs) to fully shut down. You can refresh the page and when it no longer loads, you know everything has shut down.
